## 🛠 SKILLS

- Excellent professional communication skills in English and Spanish; proficient in French, Portuguese, German
- Excellent team player, and adept at picking up new technologies and utilizing them quickly.
- Experience with Java, HTML/CSS/Bootstrap/Saas, and JavaScript/jQuery
- Working knowledge of C, SQL, C++, C#, Python, Dart/Flutter in Eclipse, IntelliJ, CLion, VS, VSCode
- Experience working with Git in team environments for multiple projects

## 🎓 EDUCATION

### Computer Systems Technology - Digital Processing| BCIT          Class of June 2024

Experience with a wide array of different programming languages, solidifying my technical communication, and group projects. Working towards accelerating my knowledge in game development by completing my Bachelor of Technology in Games Development (anticipated Class of 2024).

### Computer Science Certificate (Partial) | Douglas College          2018 – 2020

Introduction to computer science; relevant courses: Intro to Comp Sci (C#), C++ Programming, Python Programming, Calculus I and II as well as Business courses.

## 🎓 PROJECTS

### Please check my website for more academic and personal projects

### "Emitty"| Academic Project          April - May 2021

In a team of 4, we successfully planned, designed, and implemented our very own mobile web application: Emitty. Focusing on solutions to offset our $CO_2$ emissions, we developed Emitty, the carbon tracking web app that gives you the option to offset the amount of $CO_2$ that you emit by giving you a list of charitable organizations that work towards offsetting $CO_2$ around the globe, by directly donating to them.

### "FitMatch"| Academic Project                                   December 2020

In a group of three, built a webapp called FitMatch that matches users with other users and social groups based on their fitness interests. Once matched, users can message one another and share their fitness routines, diets, exercise tips, and so on.
We were able to deliver the project which received a mark of 93.75%. I managed the project, coordinated meetings, and led the sprints.

## EXPERIENCE

### Lab Proctor| BCIT IT Services                                  May 2021 – present

Troubleshoot a variety of issues within BCIT's Burnaby campus, while delivering exceptional client service to lab instructors and BCIT staff.

### Vice President| Coding For All Club                           January – September 2021

Provide support for the Winter 2021 CST intake. Manage zoom meetings where we give new students in the Computer Systems Technology Program tips and methods to excel in their first term at BCIT, and their future terms.

### Tennis Instructor| Self Employed                              May – September 2020

Instructed 56 students aged 3-50 years old over the summer on the basic skills and fundamental principles of tennis and team effort.
Managed to teach classes of groups of 4-10 students as well as private lessons to people of various backgrounds, solving behavioral problems and challenges from everyday group and one-on-one dynamics.

### Sales Representative | Freedom Mobile                         March 2019 – January 2020

Provided exceptional customer service throughout all stages of the customer lifecycle from greeting, informing, selling, or answering customer inquiries to assisting with customer billing or hardware questions.
Developed my communication skills; able to effectively explain plans, thoughts, and concepts when speaking to customers or colleagues.

### Link Leader| Archbishop Carney Regional Secondary School          2017 - 2018

As a senior, I welcomed the new grade 8 students into my high school community and eased their transition into high school by acting as mentor and hosting various activities and events.
During the planning and actual execution of the Link Leader's main event for the new students, I was placed in a leadership position in which I planned, organized, led, and ran the entire activity night.

## INTERESTS

- Passion for historically based video games, e.g., Assassin's Creed franchise, Age of Empires.
- Sports fanatic, played on my high school's tennis, soccer, and basketball teams, winning multiple championships.
- Love to design sketches in my free time.
- Family's personal BBQ chef
